

REMARKS/ARGUMENTS

Favorable consideration of this application, as presently amended, is respectfully requested.

By the present Preliminary Amendment the specification is amended to make certain clarifications and to be in more proper format under United States practice.

Further, claim 1 is amended to clarify language therein.

Replacement Figure 8 is also submitted to now refer to a "Circuit" in elements 12 and 13 and to properly label element 20.

The amendments to the specification, claims, and replacement Figure 8 are believed to be clear from the original disclosure, and thus are not believed to raise any issues of new matter.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
